

Otter Express

User Story

CSUBM Faculty and Staff members will be able to order Otter Express products online. They will start by searching Otter Express products by price, type, calories, and healthy choice. They will select as many products as they want.

They should be able to login at any time during this process (before or after selecting the products).

Once they place the order, an email is sent to them.

Their order will be delivered within 30 minutes.

They will need to pay a \$1 fee for delivery services.
